UROLOGY · STERILE · SINGLE USE

Silicone Urinary Catheters

100% silicone, latex-free urinary catheters: 2-way and 3-way Foley, and Nelaton.

ISO 13485 | CE MDR Class IIa

2-way Foley · 8–26 Fr

3-way Foley · 18–30 Fr, with irrigation lumen

INTENDED USE

Urinary drainage through the urethra. The 2-way Foley catheter is held in the bladder by a retention balloon for indwelling drainage; the 3-way Foley adds a lumen for bladder irrigation; the Nelaton catheter has a straight tip without balloon.

FEATURES

- 100% silicone, latex-free
- Retention balloon on 2-way and 3-way Foley
- 3-way Foley with separate drainage, balloon and irrigation lumens
- Nelaton in paediatric (250 mm) and standard (400 mm) lengths
- Sterile (EO), single use

SPECIFICATIONS
